Part 1

Aim of the Event:

Industrial visit provides students a much relevant practical perspective of the actual work place and the larger world of business. Industrial visits grant the students a great opportunity to interact with industries and know more about industrial environment.

Part 2

Abstract

As a part of the course curriculum of MBA, a one-day Industrial visit was organised on 7th March, 2024 MBA first year students of Section C to Surya Roshni Limited (Steel division) at Bahadurgarh, Haryana. Surya Roshni Limited is a leading name in the Indian steel and lighting industry. The company's steel division specializes in manufacturing a wide range of steel products, including pipes, strips, and tubes, catering to various sectors such as construction, automotive, and infrastructure.

Surya Roshni started in 1973 with making Steel Tubes, and has grown by leaps and bounds to become one of the largest Steel Pipes and Lighting companies in India. With sales of INR 7,997 crores in FY 2022-23, Surya Roshni is one of the largest conglomerates in India, with exports to over 50 countries around the world. The Surya and Prakash Surya brands stand for quality, innovation and the latest technology.

The visit was guided by two professionals from Surya Roshni Limited. We were divided into two groups of 20 each & then the visit started with a tour of the steel melting shop, where raw materials like iron ore, coal, and limestone are melted in a blast furnace to produce molten steel. We observed the hot rolling process, where molten steel is transformed into various shapes and sizes. The precision and speed of the process were impressive.

We observed the hot rolling process, where molten steel is transformed into various shapes and sizes. The company showcased its adoption of cutting-edge technologies and automation in the manufacturing process, which has significantly increased efficiency and reduced human error.

The visit included interactive sessions with various professionals, including engineers, quality control analysts, and management staff. They provided valuable insights into the industry's challenges, career opportunities, and future trends.

Part 3

Conclusion

The industrial visit to Surya Roshni Limited (Steel division) was an insight into the real working environment, systems, and interact with highly trained and experienced personnel. Students also had interactive session with HR & technical expert of Surya Roshni Limited. They acquainted us about there current financial position, their future prospects, recent
